Werribee National Employment and Innovation Cluster

Strengths

The cluster can build on its existing health, education and high-tech research jobs on the site of the former State Research Farm.

Jobs

The cluster is currently home to around 8,400 jobs¹⁵ and could ultimately support more than 50,000 predominantly white-collar jobs¹⁶ in health, education and high-tech research.

Key attributes

The cluster includes the University of Melbourne Veterinary Hospital, the University of Notre Dame, Victoria University, the Werribee Mercy Hospital, the Wyndham Private Medical Centre, the CSIRO, the Suzanne Cory High School and a range of high-tech research companies in the food and agricultural industries. Many of these white-collar job providers have significant expansion plans for the next 20 years. A site for a new hospital has also been purchased within the cluster by St Vincent's Private Hospital.
